WE CONNECT YOUR WORLD

Since our inception in 2006, **HAMTECH®** providing high quality networking products and solutions to become a leading of Fiber Optics, Telecommunications, cabling infrastructure, networking and physical security products. We've grown steadily throughout the years and our years of experience have taught us that the only way to stay on top of the latest technology and trends is by listening carefully to what the customer says.

HAMTECH® is an independent locally owned company, established as a multi-division organization and registered under Sudanese Company Law. The company is managed by a professional and highly experienced team focusing on fulfilling all technical and IT needs of major , industrial, governmental and commercial potential of Sudan.

HAMTECH® mission, vision, goal and motto are entirely dedicated towards a successful long term partnership with customers aiming to be partners in progress. Our obligation is to provide the Sudanese market (Government & Corporate) with state-of-the-art Technologies, Support and Services.

HAMTECH® has been committed to its core set of values: The customer, quality, innovation, teamwork and integrity, which serve as our operational foundation and are integrated into our overall business strategy. Based on these values, our workforce continues to focus on customers' business issues as well as their IT needs **HAMTECH®** provides the solutions that enable our customers to meet their customers' demands for advanced IT services – now and in the future.

In our sales activities with solutions, we are frequently asked the question, "Why should I buy a system or a product from **HAMTECH®** ?" It is a very legitimate question which we would be happy to answer.

To begin with, we offer a various solid products that has

been developed or sourced based on our years of experience in the industry. It works, and it works well. Our users tell us that it has contributed greatly to the success of their business and we think that is one of the highest compliments that we can receive. The products got to this level because we listen to what our user base has to say. In affect, our users are responsible for the success of the product because it is designed to fit their needs.

We are a team-work company that works hard at building long-term relationships. Customers who signed with us in our first year in business, are still customers.

WE CONNECT YOUR WORLD

We have a staff of dedicated professionals who understand your business. Many of them come from the solution industry. Our continuing training programs keep them up to date with technology as well as with changes in the industry itself. They are dedicated to getting your systems, hence you, up and running. We are proud of our entire staff because we think they are the best in the business and they work hard to keep this aim as well.

The philosophy behind every strategy and decision is to meet and exceed customer expectations by addressing his specific requirements and needs whenever and whenever necessary to tailor the offering to his environment.

We believe that the future of the information technology lies in an integrated solution and Professionals Services driven approach to computing and communication hence on the best interest of our customers, we have adopted to offer products and services aimed at enterprise wide integration based on the principles of Open Solutions.

HAMTECH® supports customers with integrated services for broadband, multi-service communications over wireline, wireless, cable and enterprise networks. We help to plan, deploy and maintain networks delivering broadband services to consumers and businesses, and we support both the multi-vendor and multi-service delivery requirements of our customers. Our services support customers throughout the technology life-cycle, from network design, build-out, turn-up and testing to ongoing maintenance and training, and serve as a valuable resource for their ever-expanding network needs.
